Registration To Practice

The results of the examination for registration to practice before the United States Patent and Trademark Office held on May 3, 1995, were mailed to 2,086 candidates. There were 700 persons who successfully passed the examination. The following list contains the names of those persons who passed the examination and have been given provisional recognition pursuant to 37 CFR 10.9(a) to prepare and prosecute patent applications before the Office until their registration certificates are mailed to them. Final approval for registration is subject to establishing to the satisfaction of the Director of the Office of Enrollment and Discipline that the person seeking registration is of good moral character and repute. 37 CFR 10.7 (a). Accordingly, any information tending to affect the eligibility of any of the following persons on moral, ethical, or other grounds should be furnished to the Director of Enrollment and Discipline on or before January 5, 1996.

Patent and Trademark Office

Notice of Hearings and Request for Comments on Issues Relating to Patent Protection for Nucleic Acid Sequences

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Notice of Hearings and Request for Comments.

SUMMARY: The Patent and Trademark Office (PTO) will hold public hearings, and it requests comments, on issues relating to patent protection for nucleic acid sequences. Interested members of the public are invited to testify at public hearings and to present written comments on any of the topics outlined in the supplementary information section of this notice.

DATES: Public hearings will be held on Wednesday, November 29, 1995, from 9:00 a.m. until 1:00 p.m., and Thursday, December 7, 1995, from 9:00 a.m. until 1:00 p.m.

Those wishing to present oral testimony at any of the hearings must request an opportunity to do so no later than Monday, November 27, 1995, for the November 29 hearing, or Tuesday, December 5, 1995, for the December 7 hearing.

Speakers may provide a written copy of their testimony for inclusion in the record of the proceedings no later than Monday, December 18, 1995.

Written comments will be accepted by the PTO until December 18, 1995.

Written comments and transcripts of the hearings will be available for public inspection on or about Monday, January 22, 1996.

ADDRESSES: The November 29 hearing will be held from 9:00 a.m. until 1:00 p.m. at the University of California, San Diego, The Mandeville Auditorium/Recital Hall, Muir Campus, La Jolla, California.

The December 7 public hearing will be held from 9:00 a.m. until 1:00 p.m. in Suite 912, Commissioner's Conference Room, Crystal Park Building No. 2, 2121 Crystal Drive, Arlington, Virginia.

Requests to testify should be sent to Esther Kepplinger by telephone at (703) 306-2714, by facsimile transmission at (703) 308-6879, or by mail marked to her attention addressed to the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231. No request for oral testimony will be accepted through electronic mail.

Written comments should be addressed to the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231, marked to the attention of Esther

Kepplinger. Comments may also be submitted by facsimile transmission at (703) 308-6879, with a confirmation copy mailed to the above address, or by electronic mail over the Internet to "sequences@uspto.gov."

Written comments and transcripts of the hearings will be maintained for public inspection in Suite 520 of Crystal Park One, 2011 Crystal Drive, Arlington, Virginia. Transcripts and comments provided in machine readable format will also be available through anonymous file transfer protocol (ftp) via the internet (address: sequences@uspto.gov).

FOR FURTHER INFORMATION CONTACT: Esther Kepplinger by telephone at (703) 306-2714, by facsimile transmission to (703) 308-6879, by electronic mail at ekepplin@uspto.gov, or by mail marked to her attention addressed to the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231.

SUPPLEMENTARY INFORMATION

I. *Background*

With the growth of the biotechnology industry have come significant changes in the process of research, development and commercialization of biotechnology inventions. For at least a decade, patent applications claiming nucleic acid sequences, such as genes composed of deoxyribonucleic acid ("DNA"), have been examined and granted patent rights by the PTO. These sequences typically encode known proteins or proteins for which applicant discovered a function. Scientific and technological advances have permitted researchers to identify large numbers of gene fragments rapidly. Armed with databases containing the sequences of known genes, they can identify a novel sequence. The ease of sequencing large numbers of random nucleic acid fragments has resulted in the filing of a growing number of patent applications each claiming thousands of nucleic acid sequences. This is a serious problem for the PTO. While the PTO has recently acquired sophisticated and costly hardware and software necessary to search applications containing such sequences, their examination will significantly burden the existing system and may necessitate the acquisition of many additional, expensive, massively parallel processor computers to complete examination in a reasonable time.

PTO estimates that the computer search time for one hundred sequences is about fifteen hours and the examiner time for evaluating the sequence search results is about sixty-five hours. The estimated cost for computer search time for one hundred sequences is $1500. Although the number of cases involving large numbers of sequences presently before the PTO is small, it is estimated that the cost to search and examine these cases will be $8 million. These estimates represent searches by a massively parallel processor computer of commercially available databases. Applications that claim excessively long sequences present similar challenges, since the claimed sequence must be broken up into numerous smaller sequences in order to be searched.

An additional issue has been raised relating to what is known as the Human Genome Initiative (HGI).

The HGI is a project to obtain the entire DNA sequence in the human genome. Many of the benefits expected from the HGI are due to the characterization of expressed nucleic acid sequences in the human genome and their protein products.

Some individuals believe that expressed nucleic acid sequences in the human genome should not be patentable because of the possibility that a patent to a gene fragment could preclude future use of the gene or its protein product. This, it is argued, could inhibit future research efforts to isolate the entire gene or to develop medically beneficial protein compounds. Others believe that the benefits of the patent system should not be withheld from this area of technology, because research and development would be drastically curtailed due to the inability to protect capital investments or to reap financial rewards from those investments. Appropriate policies must be established to address these challenges.

II. Issues for Public Comment

Interested members of the public are invited to testify or to present written comments related to the above topics, including the following issues:

1. Is there a more cost-effective way to examine applications containing large numbers of sequences or excessively long sequences, in view of the PTO's limited human and computer resources?

2. How should the significantly higher cost associated with searching applications claiming large numbers of sequences or excessively long sequences be underwritten? For example:

   a) By fees from all applications?
   b) By fees from the biotechnology industry applications only?
   c) By fees from those specific applications involving large numbers of sequences or extraordinarily long sequences?

3. Will the patenting of a complete genome of an organism inhibit rather than promote advancement of the biotechnology arts? If so, why?

4. Will the patenting of human genome fragments inhibit rather than promote advancement of the biotechnology arts? If so, why?

III. *Guidelines for Oral Testimony*

Individuals wishing to testify at the hearings must adhere to the following guidelines:

1. Requests to testify must include the speaker's name, affiliation, title, phone number, fax number, mailing address, and Internet mail address (if available).

2. Speakers will be provided between seven and fifteen minutes to present their remarks. The exact amount of time allocated per speaker will be determined after the final number of parties testifying has been determined. All efforts will be made to accommodate requests for additional time for testimony presented before the day of the hearing.

3. Requests to testify may be accepted on the date of the hearing if sufficient time is available on the schedule. No one will be permitted to testify without prior approval.

A schedule providing approximate times for testimony will be provided to all speakers the morning of the day of the hearing.

Speakers are advised that the schedule for testimony may be subject to change during the course of the hearings.

IV. Guidelines for Written Comments

Written comments should include the following information:

1. Name and affiliation of the individual responding.

2. If applicable, an indication of whether comments offered represent views of the respondent's organization or are the respondent's personal views.

3. If applicable, information on the respondent's organization, including the type of organization (e.g., business, trade group, university, non-profit organization) and general areas of interest.

Information that is provided pursuant to this notice will be made part of the public record. In view of this, parties should not provide information they do not wish publicly disclosed. Parties who would like to rely on confidential information to illustrate a point being made are requested to summarize or otherwise provide the information in a way that will permit its public disclosure.

Parties offering testimony or written comments should provide their comments in machine readable format, if possible. Such submissions should be provided by electronic mail messages over the Internet, or on a 3.5" floppy disk formatted for use in either a Macintosh or MS-DOS based computer. Machine readable submissions should be provided as unformatted text (e.g., ACSII or plain text), or as formatted text in one of the following file formats: Microsoft Word (Macintosh, DOS or Windows versions) or WordPerfect (Macintosh, DOS or Windows versions).

V. *Guidelines for Comments via Internet*

Comments received via the Internet should include the same information requested in the guidelines set out for written comments.

VI. *Other Information*

Questions regarding the facilities and lodging in the La Jolla, California, area should be directed to the University of California, San Diego, Special Events, by phone at (619) 534-6386, or by fax to (619) 534-0905. Parking permits are required for on-campus parking and may be purchased in advance through the Parking Office or on November 29 at Information booths at the university. Questions regarding parking should be directed to the Special Events Parking Office at (619) 534-9682, or by fax to (619) 534-9685.

SPECIAL BOXES FOR PATENT MAIL

Special box designations should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these special boxes. If any documents other than the specified type identified for each special box are addressed to that box, they will be significantly delayed in reaching the appropriate area for which they are intended.

Please address mail as follows:

Box _____
Assistant Commissioner for Patents
Washington, D.C. 20231

Box Designations	Explanation
Box 7	Reissue applications for patents involved in litigation and subsequently filed related papers.
Box 12	Contributions to the Examiner Education Program.
Box 313b	Petitions under 37 CFR 1.313(b) to withdraw a patent application from issue after payment of the issue fee and any papers associated with the petition, including papers necessary for filing a continuing application.
Box AF	Expedited procedure for processing amendments and other responses after final rejection.
Box DAC	Petitions decided by the Office of Petitions including petitions to revive and petitions to accept late payment of issue fees or maintenance fees.
Box DD	Disclosure Documents or material related to the Disclosure Document Program.
Box FWC	Requests for File Wrapper Continuation Applications (under 37 CFR 1.62).
Box Interference	Communications relating to interferences and applications and patents involved in interference.
Box Issue Fee	All communications following the receipt of a PTOL–85, "Notice of Allowance and Issue Fee Due," and prior to the issuance of a patent should be addressed to Box Issue Fee, unless advised to the contrary. Assignments are the exception. Assignments should be submitted in a separate envelope and not be sent to Box Issue Fee.
Box M Fee	Correspondence related to a patent that is subject to the payment of a maintenance fee.
Box MPEP	Submissions concerning the Manual of Patent Examining Procedures.
Box Non-Fee-Amendment	Non-fee amendments to patent applications. (Use Box AF for responses after final rejection).
Box PATENT APPLICATION	New patent application and associated papers and fees.
Box Pat. Ext.	Applications for patent term extension.
Box PCT	Mail related to applications filed under the Patent Cooperation Treaty.
Box Provisional Patent Application	The filings of all provisional patent applications and any communications relating thereto.
Box Reconstruction	Correspondence pertaining to the reconstruction of lost patent files.
Box Reexam	Requests for Reexamination for *original* request papers *only*.
Box Sequence	Submission of diskette for biotechnical application.
Box SN	For fee and petitions under 37 CFR 1.182 to obtain date received and/or serial number for patent applications *prior* to the Office's standard notification (return postcard or the official "Filing Receipt," "Notice to File Missing Parts," or "Notice of Incomplete Application").

SPECIAL BOXES FOR TRADEMARK MAIL

Special box designations should be used to allow forwarding of particular types of trademark mail to the appropriate areas as quickly as possible. In addition to these box designations, filers are encouraged to indicate whether the contents of the envelope contain a fee. Envelopes containing a fee should be marked "FEE;" envelopes not containing a fee should be marked "NO FEE." Box designations and "FEE/NO FEE" indicators should appear on the envelope as well as on the cover sheet or first page of any document.

Please address mail as follows:

Box _____
FEE (or "NO FEE")
Assistant Commissioner for Trademarks
2900 Crystal Drive
Arlington, Virginia 22202-3513

Box Designations	Explanation
Box NEW APP FEE	New trademark applications and fees.
Box ITU FEE	Statements of Use (SOU's), and extension requests.
Box TTAB FEE	Oppositions, Cancellation petitions, and ex parte appeals.
Box TTAB NO FEE	Interferences, motions and extension requests.
Box STATUS NO FEE	Written status inquiries.
Box POST REG FEE	Affidavits, renewals, corrections, and amendments.
Box RESPONSES NO FEE	Responses to Examining Attorneys' Office actions and Post Registration actions.

SPECIAL BOXES APPLICABLE TO *BOTH* PATENT AND TRADEMARK MAIL

The following special box designations are applicable to both patent and trademark related mail, and the recommendations for "Special Boxes for Patent Mail" (above) should be followed for the types of mail listed below.

Please address mail as follows:

Box _____
Commissioner of Patents and Trademarks
Washington, D.C. 20231

Box Designations	Explanation
Box 3	Mail for the Office of Personnel from NFC.
Box 4	Mail for the Assistant Commissioner for External Affairs and the Office of Legislative and International Affairs.
Box 6	Mail for the Office of Procurement.
Box 8	All papers for the Office of the Solicitor *except* communications relating to *pending litigation*; papers relating to pending litigation shall be mailed only to the Office of the Solicitor, P.O. Box 15667, Arlington, Virginia 22215 and papers relating to pending disciplinary proceedings before the Administrative Law Judge or the Commissioner shall be mailed only to the Office of the Solicitor, P.O. Box 16116, Arlington, Virginia 22215.
Box 9	Coupon orders for U.S. patent and trademark copies.
Box 10	Orders for certified copies of PTO documents.
Box 11	Electronic Ordering Service (EOS).
Box 13	Mail for the Employee and Labor Relations Division.
Box 14	Mail directed to the APS Contracts Office.
Box 16	Deposit Account Replenishment Checks.
Box 17	Invoices directed to the Office of Finance.
Box 171	Vacancy Announcement Applications.
Box Assignment	All assignment documents except those filed with new applications.
Box EEO	Mail for the Office of Civil Rights.
Box OED	Mail for the Office of Enrollment and Discipline.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs have both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that preliminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

*A communication from the examiner should have been received in most applications filed prior to this date.

Patents will Expire as Follows:
(1) The term of any utility or plant patent that is in force on or results from an application filed before June 8, 1995 is the greater of the 20 year term provided in 35 U.S.C. 154(a)(2) or 17 years from grant subject to any terminal disclaimers. 35 U.S.C. 154(c)(1).
(2) All utility and plant patents granted on applications having an actual United States filing date on or after June 8, 1995 are granted for a term which begins on the date on which the patent is granted and ends 20 years from the date on which the application was filed in the United States. If the application contains a specific reference to an earlier application under 35 U.S.C. 120, 121 or 365(c), the patent term ends twenty years from that date on which the earliest application was filed. 35 U.S.C. 154(a)(2).
(3) All design patents are granted for a term of 14 years from the date of the grant.
However, the term of any patent may have been curtailed by disclaimer under the provisions of 35 U.S.C. 153, have lapsed due to failure to pay maintenance fees, or have been extended under the provisions of 35 U.S.C. 154, 155, or 156. Thus, if more reliable information is needed with respect to a particular patent, then the specific patent file should be reviewed to determine the actual date of patent expiration.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS CANCELED

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS AMENDED, CORRECTED, ETC.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Any change to the registration will be indicated at the bottom of each entry under ELEMENTS AMENDED, CORRECTED OR RESTRICTED. With the exception of changes to the goods and services, additions to the registration will appear in asterisks and deletions of the registration will appear in brackets. Elements which are only changed will be listed with no punctuation. As to the goods/services statement, amendments to the goods/services will appear in asterisks and deletions will appear in brackets. In addition if any change to the goods/services occurs, the element "Goods/Services" will be listed under ELEMENTS AMENDED, CORRECTED OR RESTRICTED.

Notice of Maintenance Fees Payable

Title 37 Code of Federal Regulations (CFR), Section 1.362(d) provides that maintenance fees may be paid without surcharge for the six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(h), as amended effective Dec. 16, 1991. If the maintenance fee is not paid in the patent requiring such payment the patent will expire on the 4th, 8th, or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on November 24, 1992 for which maintenance fees due at 3 years

and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 5,165,110 through 5,167,035
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on November 22, 1988 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,782,476 through 4,787,098
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on November 20, 1984 for which maintenance fees due at 11 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,483,019 through 4,484,358
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

For patents based on applications filed on or after Dec. 12, 1980, but before Aug. 27, 1982, patent owners must establish small entity status according to 37 CFR 1.27 if they have not done so and if they wish to pay the small entity amount.

The current amounts of the maintenance fees due at 3 years and six months, 7 years and six months, and 11 years and six months are set forth in 37 CFR 1.20(e)-(g), as amended Oct. 1, 1994, which are reproduced below:

37 CFR § 1.20 Post-issuance fees

(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§ 1.9(f)) $495.00
By other than a small entity $990.00

(f) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 in force beyond 8 years; the fee is due by seven years and six months after the original grant:

By a small entity (§ 1.9(f)) $995.00
By other than a small entity $1,990.00

(g) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 in force beyond 12 years; the fee is due by eleven years and six months after the original grant:

By a small entity (§ 1.9(f)) $1,495.00
By other than a small entity $2,990.00

The amount of the surcharge for paying the maintenance fee during the grace period or after expiration of the patent are set forth in 37 CFR 1.20(h), and (i) which are reproduced below:

(h) Surcharge for paying a maintenance fee during the 6 month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980:

By a small entity (§ 1.9(f)) $65.00
By other than a small entity $130.00

(i) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay is shown to the satisfaction of the Commissioner to have been:

(1) unavoidable $660.00
(2) unintentional $1,550.00

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fee

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Temporary Suspension of "At Cost" Services for Orders for Certified Copies

Effective immediately, and until further notice, the Certification Division, Office of Public Records, will temporarily suspend accepting requests for "at cost" service for orders of certified copies of PTO documents except where the requester provides documentation that the copy is required for pending litigation.

The Certification Division's ability to provide "at cost" services is based upon the ready availability of source documents either on microform or via access to electronic images. Increased filings of both patent and trademark applications have resulted in more instances where requested documents are not yet available on film or electronic media to fill customer orders on an "at cost" basis efficiently and for a reasonable fee.

Orders for expedited service for certified copies of both patent and trademark applications-as-filed and trademark registrations will continue to be accepted. Customers will be advised within three working days if microform or electronic images are not available to fill their orders on an expedited basis, and the order will be filled as a request for regular service with an appropriate adjustment and/or credit for fees paid.

Customers are reminded that expedited service is provided on a "local basis" for those orders: (1) placed through the PTO's Public Service Windows located in the Patent Search Room and the Trademark Search Library; (2) hand-delivered to the Office of Public Records' (OPR) Service Counter in the North Tower building; (3) transmitted via fax directly to the Certification Division; or (4) received from an overnight delivery service at the OPR Service Counter. Requests for expedited service received through the US mail will be processed as regular orders.

In those cases where Certification Division cannot fill a customer order within 30 days of receipt due to unavailability of media or the source document itself, customers will be provided with a certified letter documenting their request and the Office's inability to fill the order as requested. These letters will be provided at no charge. The order itself will be closed and a full refund or credit made to the customer.

Customers placing orders for certified copies may use the following as guidelines for expected turnaround times from initial receipt of an order in PTO to mailing date from the Office:

Delivery of any specific copy will vary based on the availability of microfilm products and/or file accessiblity. Customers are encouraged to fax orders for copies directly to Certification Division at (703) 308-9759 and to pay by PTO Deposit Account, MasterCard, or Visa to minimize processing time. Information on the status of pending orders may be obtained by calling (703) 308-9726 or 1 (800) 972-6382 (outside the Washington, D.C. Metro area).

Communications with the Patent and Trademark Office

Agency: Patent and Trademark Office, Commerce.
Action: Notice of Proposed Rulemaking.
Summary: The Patent and Trademark Office (Office) is proposing to amend the rules of practice in patent and trademark cases to: (1) require that patent-related mail be addressed to the Assistant Commissioner for Patents; (2) require that most trademark-related mail be addressed to the Assistant Commissioner for Trademarks; (3) specify a separate address for mail related to disciplinary proceedings pending before the Administrative Law Judge or the Commissioner in the Office of the Solicitor; (4) provide a definition of "Federal holiday within the District of Columbia"; and (5) delete the requirement for a certificate for "Express Mail" in section 1.10 and incorporate requirements for the resubmission of misplaced correspondence which parallel section 1.8.
Dates: Comments must be received by January 2, 1996. No hearing will be held.
Addresses: Address written comments to Assistant Commissioner for Trademarks, 2900 Crystal Drive, Arlington, Virginia 22202-3513, marked to the attention of Lynne G. Beresford. In addition, written comments may also be sent by facsimile transmission to (703) 308-7220 with a confirmation copy mailed to the above address, or by electronic mail messages over the Internet to mail-rule@uspto.gov.

Written comments will be available for public inspection on [Insert date 75 days after date of publication in the FEDERAL REGISTER], in the Assistant Commissioner for Trademarks' suite on the 10th floor of the South Tower Building, 2900 Crystal Drive, Arlington, Virginia 22202-3513.
For Further Information Contact: Lawrence E. Anderson (for patent-related matters) by telephone at (703) 305-9285, by electronic mail at landerso@uspto.gov, or by mail to his attention addressed to the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231; or Lynne G. Beresford (for trademark-related matters) by telephone at (703) 308-8900, extension 44, or by mail marked to her attention and addressed to the Assistant Commissioner for Trademarks, 2900 Crystal Drive, Arlington, Virginia 22202-3513.
Supplementary Information: Addresses for correspondence with the Office are proposed to be changed to reflect the creation of a mailroom site at the South Tower Building for processing most trademark-related mail; to distinguish correspondence intended for organizations reporting to the Assistant Commissioner for Patents from other correspondence; and to add a separate mailing address in the Office of the Solicitor for disciplinary matters.

The proposed rulemaking entitled "Changes in Requirements for Addressing Trademark Applications and Trademark-Related Papers" (0651-AA73) has been merged with this notice of proposed rulemaking.

The Office will now have three separate general mailing addresses: (1) Assistant Commissioner for Patents for correspondence processed by organizations reporting to the Assistant Commissioner for Patents; (2) Assistant Commissioner for Trademarks for all trademark-related mail, except for trademark documents sent to the Assignment Division for recordation and requests for certified and uncertified copies of trademark documents which should be addressed to the Commissioner of Patents and Trademarks; and (3) Commissioner of Patents and Trademarks for all other correspondence. Notwithstanding the above, it is proposed that there will be separate mailing addresses in the Office of the Solicitor for certain disciplinary matters and cases involving pending litigation.

Those who correspond with the Office are requested to use separate envelopes directed to the different areas.

Because patent-related mail will be sent to the Assistant Commissioner for Patents, the requirement to designate patent application correspondence as "PATENT APPLICATION" is proposed to be deleted from section 1.5(a).

In addition, it is proposed that "Federal holiday within the District of Columbia" be defined as including Official closings.

It is further proposed that a "Certificate of Mailing by Express Mail" (currently necessary to obtain the benefit of the date of deposit with the United States Postal Service (U.S.P.S.) as the filing date of the paper) no longer be required for correspondence actually received in the Office.

PATENT-RELATED MAIL

Section 1.1 is proposed to be amended to provide for correspondence which is processed by organizations reporting to the Assistant Commissioner for Patents to be addressed to the "Assistant Commissioner for Patents, Washington, D.C. 20231." The Office first announced the new address for patent-related mail in a notice (Change of Address for Patent Applications and Patent Related Papers) published in the *Official Gazette* at 1173 Off. Gaz. Pat. Office 13 (April 4, 1995).

This change will affect correspondence such as: patent applications, responses to notices of informality, requests for extension of time, notices of appeal to the Board of Patent Appeals and Interferences (the Board), briefs in support of an appeal to the Board, requests for oral hearing before the Board, extensions of term of patent, requests for reexamination, statutory disclaimers, certificates of correction, petitions to the Commissioner, submission of information disclosure statements, petitions to institute a public use proceeding, petitions to revive abandoned patent applications, and other correspondence related to patent applications and patents which is processed by organizations reporting to the Assistant Commissioner for Patents. When patent-related documents are filed with a certificate of mailing, pursuant to section 1.8, the certificate of mailing should be completed with the new address: Assistant Commissioner for Patents, Washington, D.C. 20231.

Unless otherwise specified, correspondence not processed by organizations reporting to the Assistant Commissioner for Patents, such as communications with the Board, patent services including patent copy sales, assignments, requests for lists of patents and SIRs in a subclass, requests for the status of maintenance fee payments, as well as patent practitioner enrollment matters including admission to examination, registration to practice, certificates of good standing, and financial service matters including establishing a deposit account should continue to be addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231. Documents to be recorded with the Assignment Division, except those filed with new applications, should be addressed to: Box Assignment, Commissioner of Patents and Trademarks, Washington, D.C. 20231. Orders for certified and uncertified copies of Office documents should be addressed to: Box 10, Commissioner of Patents and Trademarks, Washington, D.C. 20231.

Special Office mail boxes as currently listed in each issue of the Official Gazette should continue to be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Use of special box designations will facilitate the Office's timely and accurate identification and processing of the designated correspondence.

Checks should continue to be made payable to the Commissioner of Patents and Trademarks.

TRADEMARK-RELATED MAIL

Most trademark-related mail should be sent directly to the Trademark Operation at: Assistant Commissioner for Trademarks, 2900 Crystal Drive, Arlington, Virginia 22202-3513.

When trademark-related documents are filed with a certificate of mailing, pursuant to section 1.8, the certificate of mailing should be completed with the new address: Assistant Commissioner for Trademarks, 2900 Crystal Drive, Arlington, Virginia 22202-3513. Use of the correct address will avoid processing delays. Trademark documents to be recorded with the Assignment Division, except those filed with new applications, should be addressed to: Box Assignment, Commissioner of Patents and Trademarks, Washington, D.C. 20231. Orders for certified and uncertified copies of trademark documents should be addressed to: Box 10, Commissioner of Patents and Trademarks, Washington, D.C. 20231.

The Office announced the new address for trademark-related mail in a notice (Change of Address for Trademark Applications and Trademark Related Papers) published in the Federal Register at 59 FR 29275 (June 6, 1994) and in the Trademark Office Official Gazette at 1163 Off. Gaz. Trademark Office 80 (June 28, 1994) (republished in 1170 Off. Gaz. Pat. Office 303 (January 3, 1995)).

The Office will continue to maintain the special box designations and FEE/NO FEE indicators for trademark mail as currently listed in each issue of the Official Gazette. In addition to addressing trademark-related mail as set forth above, the boxes should also be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible.

Checks should continue to be made payable to the Commissioner of Patents and Trademarks.

Mail intended for the Trademark Trial and Appeal Board should be addressed to: Assistant Commissioner for Trademarks, 2900 Crystal Drive, Arlington, Virginia 22202-3513, including BOX TTAB/FEE or BOX TTAB/NO FEE, whichever is applicable.

HAND-CARRIED CORRESPONDENCE

All correspondence with the Office, except for communications relating to pending litigation as specified currently in section 1.1(g), may continue to be filed directly at the Attorney's Window located in Room 1B03 of Crystal Plaza Building 2, 2011 South Clark Place, Arlington, Virginia. Trademark-related papers may also be filed at the "walk-up" window located on the third floor of the South Tower Building, 2900 Crystal Drive, Arlington, Virginia.

FEDERAL HOLIDAYS WITHIN THE DISTRICT OF COLUMBIA

When the Patent and Trademark Office is officially closed for an entire day (for reasons due to weather or other causes), the Office will consider each such day a "Federal holiday within the District of Columbia" under 35 U.S.C. § 21. Any action or fee due on such a day may be taken, or fee paid, on the next succeeding business day the Office is open.

Legal holidays considered "Federal holidays within the District of Columbia" are New Year's Day (January 1), Martin Luther King, Jr.'s Birthday (third Monday in January), Presidential Inauguration Day, Washington's Birthday (third Monday in February), Memorial Day (last Monday in May), Independence Day (July 4), Labor Day (first Monday in September), Columbus Day (second Monday in October), Veterans Day (November 11), Thanksgiving Day (fourth Thursday in November) and Christmas Day (December 25). In the past, the Office has published notices concerning unscheduled closings. *See, e.g.*, "Closing of Patent and Trademark Office on Thursday, January 20, 1994 and Friday, February 11, 1994," 1161 Off. Gaz. Pat. Office 12 (April 5, 1994) (republished in 1170 Off. Gaz. Pat. Office 8 (January 3, 1995)) and "Filing of Papers During Unscheduled Closings of the Patent and Trademark Office," 1097 Off. Gaz. Pat. Office 53 (December 20, 1988) (republished in 1170 Off. Gaz. Pat. Office 8 (January 3, 1995)). The proposed rule change will further implement the existing policy.

EXPRESS MAIL PROVISIONS

Section 1.10 is proposed to be amended by deleting the requirement for a "Certificate of Mailing by Express Mail" to obtain the benefit of the date of deposit with the United States Postal Service (U.S.P.S.) as the filing date of the paper. The title of section 1.10 is proposed to be revised and section 1.10 is also proposed to be amended to incorporate requirements for the resubmission of misplaced correspondence which parallel section 1.8.

Under the current rule, the filer is required to include a Certificate of Mailing by Express Mail, certifying the date of deposit as Express Mail. Some papers filed with the Office, although deposited as Express Mail with the U.S.P.S., have been denied the filing date of the date of deposit as Express Mail because the required Certificate of Mailing by Express Mail was omitted or deficient. The lost filing date for a significant number of these papers has resulted in the loss of substantive rights. For example, a trademark registration may be canceled if the required affidavit of continued use or excusable non-use is not filed by the end of the sixth year of registration. 15 U.S.C. § 1058.

In light of the problematic nature of the requirement for a Certificate of Mailing by Express Mail, inasmuch as the date of deposit has already been entered by a disinterested third party, the Office proposes to delete this requirement from section 1.10.

MISCELLANEOUS CHANGES

Miscellaneous changes are proposed to change the word "communications" to "correspondence" for purposes of consistency. Also, since the certificate of mailing by "Express Mail" will no longer be a requirement of the proposed rules, the provisions of Part 10 relating to misconduct are proposed to be amended to delete reference to this requirement.

DISCUSSION OF SPECIFIC RULES

If revised as proposed, the heading of section 1.1 will be changed to state that the section contains the addresses for correspondence to the Patent and Trademark Office.

Section 1.1 is proposed to be revised to set out all pertinent Office mailing addresses in paragraph (a) and in added paragraphs (a)(1), (a)(2), and (a)(3). It should be noted that the remaining paragraphs of section 1.1 contain directions for using box designations rather than addresses. Paragraph (a)(1) is proposed to be added to set out the new mailing address to which most patent-related documents should be sent. Paragraph (a)(2) is proposed to be added to set out the new mailing address to which most trademark-related documents should be sent. The Solicitor's mailing address, formerly set out in paragraph (g) of the section is moved to a new paragraph (a)(3). Paragraph 1.1(g) is proposed to be removed and reserved.

Sections 1.1 and 1.3 are proposed to be amended so that the word "communications" is changed to "correspondence."

Section 1.5(a) is proposed to be amended by removing the requirement of the words "PATENT APPLICATION" on letters concerning patent applications.

Section 1.8 (a) is proposed to be revised to state that papers and fees must be addressed as set out in section 1.1 (a). For the purposes of 1.8 (a) (1) (i) (A), first class mail is interpreted as including "Express Mail" and "Priority Mail" deposited with the U.S.P.S.

Section 1.9 is proposed to be amended to add a definition of "Federal holiday within the District of Columbia" to include Federal holidays and days when the Patent and Trademark Office is officially closed for the entire day (for reasons due to adverse weather or other causes).

Section 1.10 is proposed to be revised to state that "Express Mail" must be addressed as set out in § 1.1(a). The title of section 1.10 is proposed to be revised to reflect this change. Further, for all correspondence *actually received* in the Office, the Office will consider the correspondence filed on the date shown by the "date in" notation on the "Express Mail" label unless the "date in" is a Saturday, Sunday or Federal holiday within the District of Columbia. Because of the reliance on the "date in" marked by the Postal Service, correspondence should be deposited directly with a person at the United States Postal Service, rather than in a drop box, to ensure that the person making the deposit receives a copy of the "Express Mail" label at the time of making the deposit to verify that the "date in" is accurately and clearly written by the Postal Service employee. Persons using an Express mail receptacle (such as a drop box) do so at the risk of not receiving an accurate and legible copy

VOL 1180 ISS 4 NO 28 1995 UMI

of the Express mail label at the time of deposit from which the Office may determine the "Express mail" "date in," and, therefore, may not later argue that they should be entitled to the date on which they deposited the correspondence into a receptacle. Moreover, if the "date in" is found to be illegible or unclear, a person dealing directly with a Postal Service employee must take corrective action to ensure that a clear and accurate date is marked at the time of deposit. Persons choosing to use a receptacle (or the like) obviously do not oversee the marking by a Postal Service employee and thus may not later argue for the benefit of a section 1.10 filing date if the "date in" on the "Express Mail" label is improperly or not clearly marked. The determinative factor is when the Postal Service marks the "date in" and the mere deposit into a receptacle does not entitle one to an "Express Mail" "date in" under section 1.10.

Paragraph (b) of section 1.10 is proposed to be amended by deleting the requirement for a "Certificate of Mailing by Express Mail" currently necessary to obtain the benefit of the date of deposit with the United States Postal Service (U.S.P.S.) express mail service as the filing date of the paper.

Paragraph (c) of section 1.10 is proposed to be amended to set forth the requirements for the treatment of correspondence not received by the Office for which the "Express Mail" procedure was utilized. Correspondence not received by the Office will be considered filed in the Office on the date shown by the "date in" notation entered by the Postal Service if the party who forwards the correspondence:

(1) Places the number of the "Express Mail" mailing label on the correspondence prior to the original mailing by "Express Mail,"

(2) Informs the Office of the previous deposit of the correspondence promptly after becoming aware that the Office has no evidence of receipt of the correspondence,

(3) Supplies an additional copy of the previously deposited correspondence showing the number of the "Express Mail" label thereon,

(4) Supplies a copy of the "Express Mail" label clearly displaying the "date in" entered by the United States Postal Service, and

(5) Includes a statement which establishes, to the satisfaction of the Commissioner, the previous deposit and that the copies of the correspondence and "Express Mail" label are true copies of the original correspondence and "Express Mail" label. Such statement must be on the basis of personal knowledge, whenever possible, and must be a verified statement if made by a person other than a practitioner as defined in section 10.1(r) of this chapter.

In addition, although the requirement for a certificate of express mail has been proposed to be eliminated from section 1.10, applicants are strongly encouraged to continue using the certificate of express mail, as well as the placement of the Express Mail label number in the upper right corner of the first page of each separate piece of correspondence and to retain a clearly marked Express Mail label, to facilitate complying with the requirements of paragraph (c) if the correspondence is not received in the Office or if reliance on the U.S.P.S. "date in" is not possible. Moreover, paragraph (d) is proposed to be added so that additional evidence may be required if the Office so determines.

Section 5.33 (entitled "Correspondence") is proposed to be amended to change the correspondence address to "Assistant Commissioner for Patents (Attention: Licensing and Review), Washington, D.C. 20231."

Section 10.23(c)(9) is proposed to be revised to reflect the proposed change to section 1.10 that the certificate of mailing by "Express Mail" is no longer a requirement of the rules.

OTHER CONSIDERATIONS

The proposed rule changes are in conformity with the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), Executive Order 12612, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* Information collection requirements are not affected by the change of address. This proposed rule has been determined to not be significant for the purposes of Executive Order 12866.

The Office has determined that this proposed rule change has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

The Assistant General Counsel for Legislation and Regulation of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that the proposed rule changes would not have a significant impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The proposed rule change has no effect on patent fees.

These proposed rule changes contain collections of information subject to the requirements of the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*, which are currently approved by the Office of Management and Budget under Control No. 0651-0009 and 0651-0031. The public reporting burden for these collections of information for certificate of mailing is estimated to average six minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Office of System Quality and Enhancement Division, Patent and Trademark Office, Washington, D.C. 20231, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503. (ATTN: Paperwork Reduction Act Projects 0651-0009 and 0651-0031).

For the reasons set forth in the preamble and under the authority granted to the Commissioner of Patents and Trademarks by 35 U.S.C. 6 and 15 U.S.C. 1123, 37 CFR Parts 1, 5 and 10 are proposed to be amended as follows:

PART 1--RULES OF PRACTICE IN PATENT CASES

1. The authority citation for 37 CFR Part 1 continues to read as follows:
Authority: 35 U.S.C. 6, unless otherwise noted.

2. Section 1.1 is proposed to be amended by removing and reserving paragraph (g) and by revising the title and paragraph (a) to read as follows:

§ 1.1 Addresses for correspondence with the Patent and Trademark Office.

(a) Except for those documents identified in paragraphs (1), (2) and (3) of this section, all correspondence intended for the Patent and Trademark Office must be addressed to "Commissioner of Patents and Trademarks, Washington, D.C. 20231." When appropriate, correspondence should also be marked for the attention of a particular office or individual.

(1) *Patent correspondence.* All correspondence concerning patent matters processed by organizations reporting to the Assistant Commissioner for Patents should be addressed to "Assistant Commissioner for Patents, Washington, D.C. 20231."

(2) *Trademark correspondence.* All correspondence concerning trademark matters, except for trademark-related documents sent to the Assignment Division for recordation and requests for certified and uncertified copies of trademark application and registration documents, should be addressed to "Assistant Commissioner for Trademarks, 2900 Crystal Drive, Arlington, Virginia 22202-3513." 3. Section 1.3 is proposed to be revised to read as follows:

§ 1.3 Business to be conducted with decorum and courtesy.

Applicants and their attorneys or agents are required to conduct their business with the Patent and Trademark Office with decorum and courtesy. Papers presented in violation of this requirement will be submitted to the Commissioner and will be returned by the Commissioner's direct order. Complaints against examiners and other employees must be made in correspondence separate from other papers.

4. Section 1.5(a) is proposed to be revised to read as follows:

§ 1.5 Identification of application, patent, or registration.

(a) No correspondence relating to an application should be filed prior to when notification of the application number is received from the Patent and Trademark Office. When a letter directed to the Patent and Trademark Office concerns a previously filed application for a patent, it must identify on the top page in a conspicuous location, the application number (consisting of the series code and the serial number; *e.g.*, 07/123,456), or the serial number and filing date assigned to that application by the Patent and Trademark Office, or the international application number of the international application. Any correspondence not containing such identification will be returned to the sender where a return address is available. The returned correspondence will be accompanied with a cover letter which will indicate to the sender that if the returned correspondence is resubmitted to the Patent and Trademark Office within two weeks of the mail date on the cover letter, the original date of receipt of the correspondence will be considered by the Patent and Trademark Office as the date of receipt of the correspondence. Applicants may use either the Certificate of Mailing or Transmission procedure under § 1.8 or the Express Mail procedure under § 1.10 for resubmissions of returned correspondence if they desire to have the benefit of the date of deposit in the United States Postal Service. If the returned correspondence is not resubmitted within the two-week period, the date of receipt of the resubmission will be considered to be the date of receipt of the correspondence. The two-week period to resubmit the returned correspondence will not be extended. If for some reason returned correspondence is resubmitted with proper identification later than two weeks after the return mailing by the Patent and Trademark Office, the resubmitted correspondence will be accepted but given its date of receipt. In addition to the application number, all letters directed to the Patent and Trademark Office concerning applications for patent should also state the name of the applicant, the title of the invention, the date of filing the same, and, if known, the group art unit or other unit within the Patent and Trademark Office responsible for considering the letter and the name of the examiner or other person to which it has been assigned.

6. Section 1.9 is proposed to be revised by adding a new paragraph (h) to read as follows:

§ 1.9 Definitions.

*****

(h) A "Federal holiday within the District of Columbia" as used in this chapter means any day, except Saturdays and Sundays, when the Patent and Trademark Office is officially closed for business.

7. Section 1.10 is proposed to be revised to read as follows:

§ 1.10 Filing of correspondence by "Express Mail."

(a) Any correspondence received by the Patent and Trademark Office utilizing the "Express Mail Post Office to Addressee" service of the United States Postal Service will be considered filed in the Office on the date shown by the "date in" notation entered by the United States Postal Service on the "Express Mail" label, unless the "date in" is a Saturday, Sunday or Federal holiday within the District of Columbia. See § 1.6(a). This procedure can be used to file any correspondence in the Office.

(b) Any correspondence filed by "Express Mail" must be addressed as set out in § 1.1(a) and should be deposited directly with the United States Postal Service to ensure that the person depositing the correspondence receives a copy of the "Express Mail" label at the time of deposit with the "date in" clearly marked thereon. Persons dealing indirectly with the United States Postal Service (such as by deposit in an Express Mail drop box) do so at the risk of not receiving their copy of the "Express Mail" label with the "date in" clearly marked.

(c) Any correspondence mailed to the Patent and Trademark Office utilizing the "Express Mail Post Office to Addressee" service of the United States Postal Service, but not received by the Office, will be considered filed in the Office on the date shown by the "date in" notation entered by the United States Postal Service on the "Express Mail" label, unless the "date in" is a Saturday, Sunday or Federal holiday within the District of Columbia (see § 1.6(a)), if the party who forwarded such correspondence:

(1) Places the number of the "Express Mail" mailing label on the correspondence prior to the original mailing by "Express Mail,"

(2) Informs the Office of the previous deposit of the correspondence promptly after becoming aware that the Office has no evidence of receipt of the correspondence,

(3) Supplies a copy of the previously deposited correspondence showing the number of the "Express Mail" label thereon,

(4) Supplies a copy of the "Express Mail" label clearly displaying the "date in" entered by the United States Postal Service, and

(5) Includes a statement which establishes, to the satisfaction of the Commissioner, to the previous deposit and that the

copies of the correspondence and "Express Mail" label are true copies of the original correspondence and "Express Mail" label. Such statement must be on the basis of personal knowledge, whenever possible, and must be a verified statement if made by a person other than a practitioner as defined in § 10.1(r) of this chapter.

(d) The Office may require additional evidence to determine if the correspondence was deposited as "Express Mail" with the United States Postal Service on the date in question.

Provisional Applications for Patent Meet Paris Convention Requirements as Foreign Priority Documents

In view of the recent question raised in the patent community regarding the adequacy of provisional patent applications filed under 35 USC 111(b) to serve as the basis for the right of priority provided by Article 4 of the Paris Convention for the Protection of Industrial Property, Commissioner Lehman decided to seek the advice of the World Intellectual Property Organization on that issue. Below is the resulting exchange of correspondence that should lay to rest any doubt that provisional patent applications are indeed sufficient for this purpose.

Dear Arpad,

Recently, a question arose regarding the adequacy of a provisional patent application, filed in accordance with section 111(b) of title 35, United State Code, to serve as the basis for the right of priority provided by Article 4 of the Paris Convention for the Protection of Industrial Property.

Although we are convinced that such an application is indeed sufficient for this purpose, we would be very interested in your opinion on this subject and request a reply at your earliest convenience.

November 20, 1995

Dear Bruce,

I thank you for your letter of November 17, 1995, asking for our views concerning the claiming of priority under Article 4 of the Paris Convention for the Protection of Industrial Property, in respect of provisional patent applications filed with the USPTO.

As you know, the International Bureau is not in a position to give an official interpretation of the provisions of the Paris Convention. However, we offer the following considerations which may be helpful in order to reply to the question raised by you.

According to Article 4A(1) of the Paris Convention, the basis for priority under that Convention is a duly filed application for a patent.

Article 4A(2) of the Paris Convention states, in particular, that "Any filing that is equivalent to a regular national filing under the domestic legislation of any country of the Union ... shall be recognized as giving rise to the right of priority." In the case under consideration, the "domestic legislation" is the legislation of the United States of America. Therefore, it is that legislation which determines whether a "regular national filing" exists, subject to compliance with Article 4A(3) of the Paris Convention.

Mr. Bruce A. Lehman, Assistant Secretary of Commerce and Commissioner of Patents and Trademarks, Patent and Trademark Office, Washington, D.C. - November 20, 1995

Article 4A(3) of the Paris Convention states that "By a regular national filing is meant any filing that is adequate to establish the date on which the application was filed in the country concerned, ..." As section 111(b) of title 35, United States Code, establishes such a filing date with respect to provisional patent applications, this requirement of the Paris Convention appears to be satisfied. To conclude otherwise would put into question the ability of domestic legislation to prescribe the requirements which must be fulfilled for a filing to be adequate to establish a filing date.

Article 4A(3) of the Paris Convention also states that "any filing that is adequate to establish the date on which the application was filed" is a regular national filing "whatever may be the subsequent fate of the application." Thus the question of whether a filing is to be considered as a "regular national filing" does not appear to depend on whether or not that filing may itself lead to the grant of a patent. Moreover, it is to be noted that applications for patents are recognized as giving rise to a right of priority under the Paris Convention even if it is clear from the outset that no patent can be granted upon such an application, for example, where the invention concerned is excluded from patenting.

Sincerely yours,

A. Bogsch

SPECIAL BOXES FOR PATENT MAIL

Special box designations should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these special boxes. If any documents other than the specified type identified for each special box are addressed to that box, they will be significantly delayed in reaching the appropriate area for which they are intended.

Please address mail as follows:

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs have both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that preliminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

*A communication from the examiner should have been received in most applications filed prior to this date.

Patents will Expire as Follows:
(1) The term of any utility or plant patent that is in force on or results from an application filed before June 8, 1995 is the greater of the 20 year term provided in 35 U.S.C. 154(a)(2) or 17 years from grant subject to any terminal disclaimers. 35 U.S.C. 154(c)(1).
(2) All utility and plant patents granted on applications having an actual United States filing date on or after June 8, 1995 are granted for a term which begins on the date on which the patent is granted and ends 20 years from the date on which the application was filed in the United States. If the application contains a specific reference to an earlier application under 35 U.S.C. 120, 121 or 365(c), the patent term ends twenty years from that date on which the earliest application was filed. 35 U.S.C. 154(a)(2).
(3) All design patents are granted for a term of 14 years from the date of the grant.
However, the term of any patent may have been curtailed by disclaimer under the provisions of 35 U.S.C. 153, have lapsed due to failure to pay maintenance fees, or have been extended under the provisions of 35 U.S.C. 154, 155, or 156. Thus, if more reliable information is needed with respect to a particular patent, then the specific patent file should be reviewed to determine the actual date of patent expiration.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
